

Team Webpage Changelogs

Changelog mainly made by Lucas, credit to Akash and Daniel

August 23, 2023

Day the website was created.

August 24, 2023

Daniel, our webmaster, began making a basic front page for our website.
Akash, our content specialist, and Daniel made a storyboard outlining the basic ideas for the project.
The other members began working on their “about me” pages separately.

sup guys

idk css so this is gonna be great!!!

[cat](#)

August 25, 2023

Ishaan added some CSS to our front page.

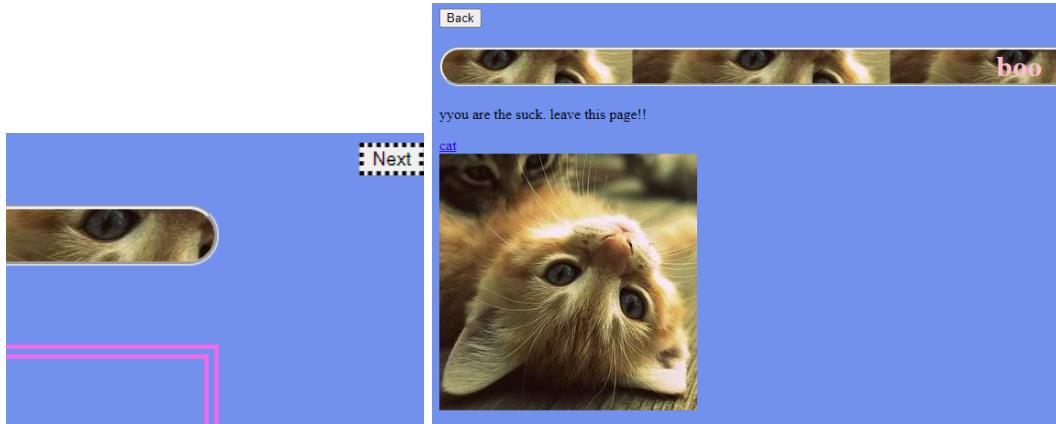

August 29, 2023

Daniel added a “next button” that can be seen after scrolling right on the front page, and it links to a different page.

Daniel also added a back button.

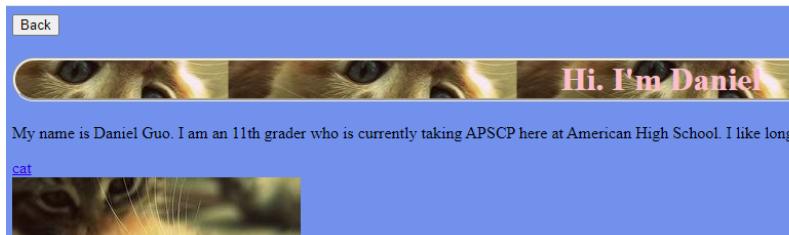

Daniel and Santiago added a slide in animation for the home page

August 31, 2023

Daniel added a basic page about himself to the site.

Ishaan works on the home page by adding css and making it a team page.

September 4, 2023

Daniel updated his “about me” page.

September 6, 2023

Santiago added his page, although it only has his name, a cyan background, and a back button.

September 8, 2023

Daniel basically spent a while trying to get a single back button to work

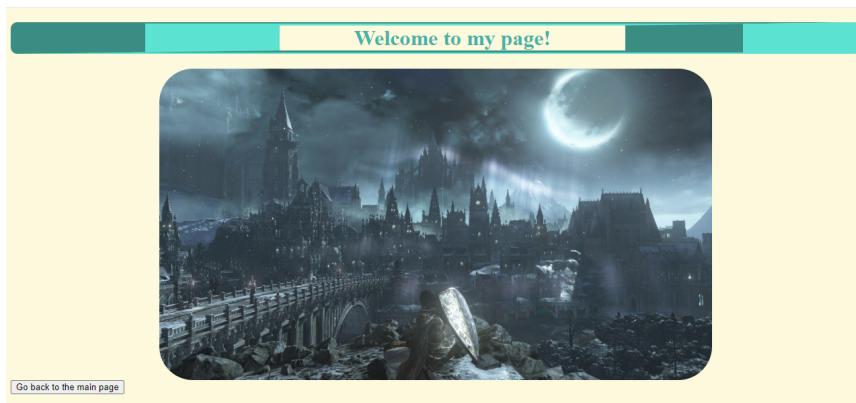

Daniel finally succeeds in fixing the back button

Daniel takes the slide in animation for his own page

Ishaan fixes up the javascript

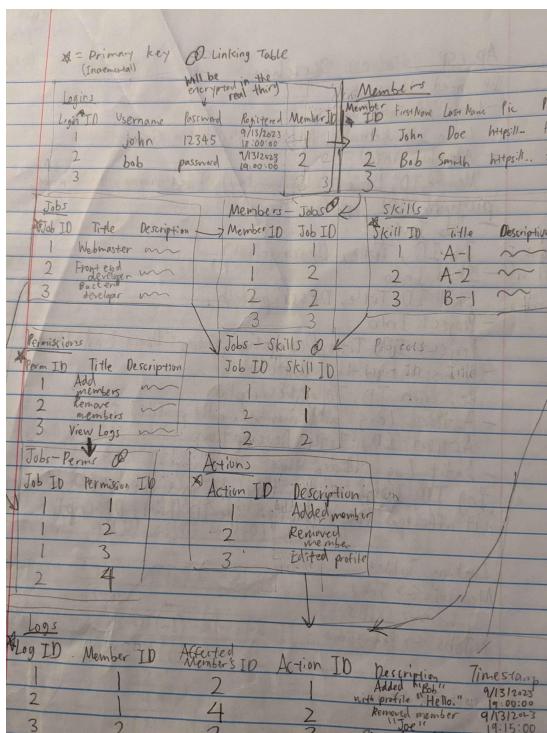

September 12, 2023

Ishaan added his about me page to the Github repo.

September 13, 2023

Lucas makes his database sketches

September 14, 2023

Ishaan updated his about me page.

Welcome to my page!

Nice to meet you! I'm a senior and I'm going into CS in college. I've got a lot of Java and Python experience, but for this class I'm trying to hone in my front-end skills (HTML and CSS) through projects like this website. My hobbies are reading/writing fanfiction, playing videogames, and hanging out with my friends!

Go back to the main page

September 15, 2023

Ishaan updated some CSS on his about me page.

September 18, 2023

Rajdeep and Lucas added their pages to the Github repo.

Welcome to Lucas's page

Hi this is a very poorly designed webpage lol

About me

- I'm in AP CSP
- I'm the lead dev for this project. I manage the database
- I'm also the publicist so I have to make a newsletter thing for our parents lmao
- I'd what to put here
- Click this cool link: [here](#)
- AAAAAAA~~~~~

My CSS skills suck lol

Skills

- None

Current work

- None lmao other than a login system for the site that I copied and pasted from an article

Eye test

September 20, 2023

One of our most productive days

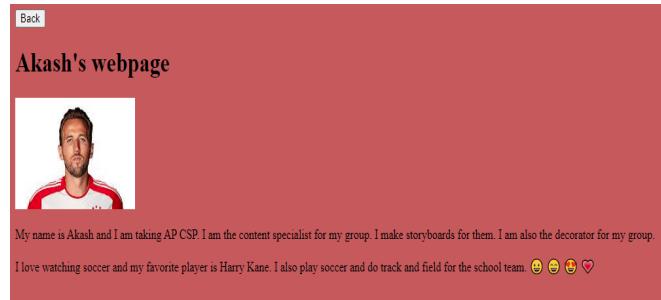

- Akash added his page
- Ishaan added buttons to our pages on the main page
- Lucas banished .DS_Store
- Lucas copied and pasted a login system from a tutorial website
- Santiago designed a sign in page

Login

September 25, 2023

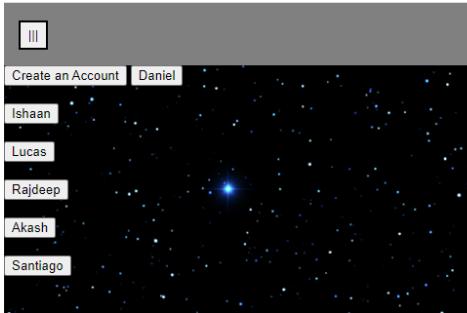

Santiago added a button linking to the sign in page

Ishaan, Lucas, and Daniel made very minor adjustments to their pages

September 27, 2023

Santiago added a header and a collapsible menu to the main page

September 30, 2023

Lucas added the ability to delete your account in the login system.

Delete Your Account

You are deleting the account **admin**. Please enter your password to confirm.

Warning! Once you delete your account, it is gone permanently.

Back to main page

October 1, 2023

Lucas added:

- Forms for adding and removing members
- Form for banning accounts (which just deletes the account)
- Form to link accounts to members
- Admin dashboard that links to all the forms

October 10, 2023

Santiago fixed some CSS

October 11, 2023

Daniel pasted in Rajdeep's new page. For some reason Rajdeep decided that it would be cool to make the background color change every 2 seconds.

Rajdeep Sodhi

Mr.Millard - Period 4

I am my team's tech support and the event planner for Period 4. If someone on my team encounters an error, it is my job to find them a solution, find someone else who can give them a solution, or, my favorite, use AI to find a solution (Reason why I like this class best). Ever since my team and I began a project, they have very well understood the usefulness of my role and how much I am able to contribute to the team. My skills include Python as my most proficient skill, and a bit of HTML, Javascript, CSS, C++, and Java. Let me emphasize that again, "a little bit." However, my skills may not be the best I definitely take time to strengthen my skills during class time.

↓↓ This def looks like me & I def got a bread ↓↓

October 12, 2023

Akash and Santiago make small changes to their pages
Daniel writes a description for Santiago

[back](#)

Santiago Sanchez

Hi, I'm Santiago. I am an 11th grader who likes to develop in my spare time.

My coding experience includes: Python, Java, HTML / CSS, and GDscript.

October 20, 2023

Daniel adds text in the header and buttons in the sidebar

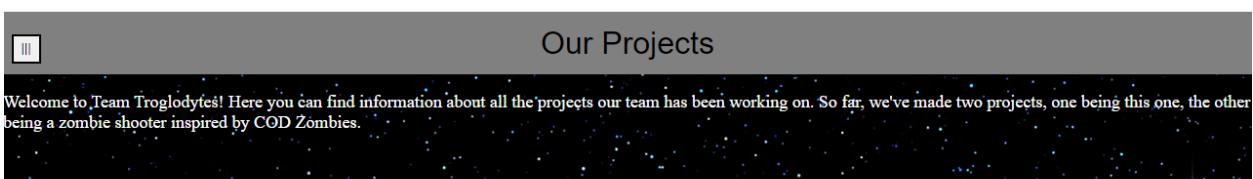

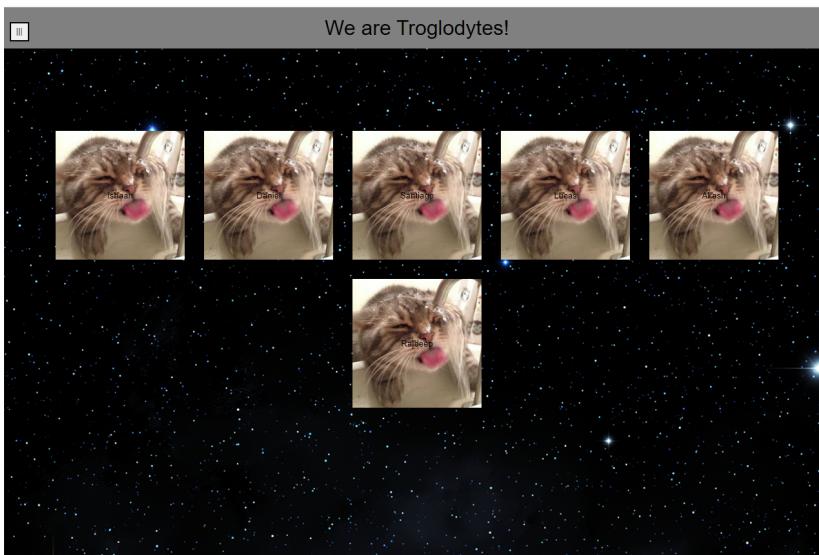

October 24, 2023

(No image) Daniel fixes the back button on Rajdeep's page

October 25, 2023

Daniel adds images to our buttons on the main page and a project page

November 13, 2023

Lucas makes a new project page

The screenshot shows a web page titled "Our Projects". The page has a dark background with a starry pattern. At the top, it says "Welcome to Team Troglodytes! Here you can find information about all the projects our team has been working on." Below this, there are two project cards. The first card is for "Team Webpage" and the second is for "Zombie Shooter Game". The "Zombie Shooter Game" card features a large green hand-drawn style "Zombies" word with a small zombie head in the center.

November 15, 2023

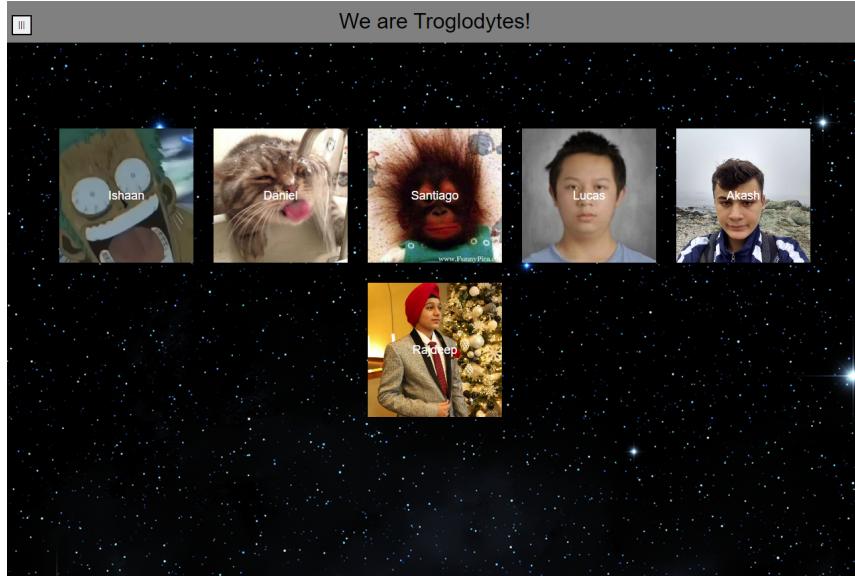

Lucas adds a page for our third project, the Lamp Project. (Although it is currently a blank template)

The screenshot shows a project page titled "Lamp Project". At the top, there are links for "Previous Project" and "Back to Project List". Below this, a placeholder text says "Put some words of wisdom or a funny quote here, idk". The page is divided into several sections:

- Project Description**: A placeholder text area with the instruction "Put an image of the project in place of this".
- Description**: A section containing the text "Arduino project".
- Github Repository**: A section with a link "Link to Repo".
- Started On**: A section with the date "November 15, 2023".
- Member Roles and Contributions**: A section with a plus sign (+) at the end.
- Changelogs**: A section with a plus sign (+) at the end.

November 17, 2023

Daniel adds our photos

December 6, 2023

Lucas adds documentation to the projects page
Lucas changes around some css

December 8, 2023

Rajdeep deletes all evidence of him completing his AP Physics 1 homework during class
Santiago updates his page with an actual description
Daniel added a back button to Rajdeep's page

[back](#)

Santiago Sanchez

Hi, I'm Santiago and I am currently in my 11th year of high school. I creating things and coding in my free time. Most of the things that I know regarding this is self taught. The languages I am most familiar with working with are Python, CSS, HTML, and GDScript. Currently in AP CSP we are working on 3 projects; this website, a game, and another arduino project.

December 10, 2023

Lucas changed the documentation layout

Lucas added an image for the team webpage project

December 11, 2023

Lucas added our Pong with Guns project

Lucas added relevant information to his website

December 14, 2023

Lucas updates his page again

December 18, 2023

Lucas made the website more user-friendly by making all the buttons actual links (so you can open in new tab)

Rajdeep updated information about member contributions
